1 Introduction

DataWinners Overview

DataWinners is an online do-it-yourself mobile data collection service for development professionals like you. Organizations all over the world use DataWinners to transform paper forms into digital questionnaires. Staff submits data in seconds using any combination of SMS, Smartphone and Web with the equipment they already have.

Objective of the Document

Provide a step-by-step guide to help Project Managers convert their paper forms to digital questionnaires.

Target Group

Project managers who need complete, accurate and timely data to make better decisions.

Time Estimation

This guide will help you to build your digital questionnaires in minutes. Once created, you can immediately begin collecting the data you need via SMS, Smartphone and Web!

2 Creating a Questionnaire in DataWinners

This guide will lead you through the four key steps to get started collecting data with DataWinners.

Step 1: Build your Questionnaire

SMS Questionnaire Code: ?

Preview: SMS Smartphone Web

Questions

[+ Add a Question](#)

1. What is the identification number of the child?
2. What day did the child visit the center?

[Delete](#) [Move Up](#) [Move Down](#)

Question

What day did the child visit the center?

Answer Type ?

Select what kind of answer you want from your Data Senders.

Date

Step 2: Create profiles for your people, places and things

Child

[Register a Child](#) | [Import a List](#) | [Export](#)

Register each Child you need to collect data about and want to see on a map.

My Child [Child Registration Form](#)

View each of your registered child in detail.

Actions 1 to 12 of 12 Child(s) Search:

	Child's first name?	Child's last name?	Child's date of birth?	Mother's name?	Address?	Child's GPS coordinates?	Child's Unique ID Number?
<input type="checkbox"/>	Fifaliana	Andrianandraina	24.09.2013	Haja	Andavamamba	-18.899177, 47.522939	chi7

Step 3: Authorize who can send you data

My Data Senders

3 Create Your Questionnaire

When you sign in to DataWinners (www.datawinners.com/login), you land on the Dashboard page.

This page is where you will create a new Questionnaire. You can also see a list of recent Questionnaires. You can create an unlimited number of Questionnaires in your DataWinners account.

Dashboard

Create a New Questionnaire Click on "Create a New Questionnaire" to get started

Your Most Recent Questionnaires

Questionnaire	Status
Recensement scolaire	4 successful 1 errors
School census	3 successful 1 errors
Lutte contre le paludisme	6 successful 0 errors

Statistics

Submissions Received

	This Month	Total
SMS	0	0
Smartphone	0	0
Web	33	33
Total	33	33

Before starting, ask yourself two questions:

1. What key data do I need to collect from the field to gain insight and make the right decisions?
2. How can I formulate the question so my Data Senders understand what I want from them?

You might want to start by reviewing your current paper form and identifying the most pressing information needs.

3.1 Choose How You Want to Start

To create a Questionnaire, you have four choices:

1. Create a New Questionnaire
2. Copy an Existing Questionnaire
3. Use a Template
4. Use an XLSForm to create an advanced Questionnaire

DataWinners Dashboard Questionnaires All Data Senders Identification Numbers Languages

Create a New Questionnaire

1. Choose How To Start

- ▶ Create a New Questionnaire
- ▶ Copy an Existing Questionnaire
- ▶ Use a Template
- Advanced Option (Beta Version) ?
- ▶ Upload an XLSForm

Cancel

3.1.1 Create a New Questionnaire

Choose "Create a New Questionnaire" if you want to start with a blank Questionnaire. Then enter your questions and set your own criteria.

Create a New Questionnaire

[Back](#) [Cancel](#) [Save & Create Questionnaire](#)

Congratulations! You successfully created your Questionnaire. Now learn how to register your Identification Numbers and Data Senders.

4 Register Identification Numbers

The next step is to create a profile for each Identification Number by filling out a registration form. If you didn't link any Identification Number to your Questionnaire, you can skip this step, and move directly to **Step 3: Register Data Senders** (page **Erreur ! Signet non défini.**). Think of the profile as background data for each of your Identification Numbers (Example: Child's first name, Child's last name, Child's mother's name, GPS code of village, etc.)

There are several advantages to registering Identification Numbers profiles:

1. Improve data quality: ID numbers help avoid data errors due to common misspellings or typos.
2. Speed up data collection: Register the background information once, then Data Senders only have to answer one question (Example: "What is the identification number of the child"?). They'll have to just type the short code instead of typing a long text.
3. Use Identification Number IDs for multiple DataWinners Questionnaires: Once you create your profiles, you can use the same Identification numbers across several different Questionnaires.

The first step is to create an Identification Number registration form for your Identification Numbers. Come up with a list of simple background questions you'd like to collect for each of your Identification Numbers types as part of the Identification Number profile. DataWinners provides a first draft of the Identification Number questionnaire. You can edit this to include any questions that would be useful for your Questionnaire.

Click on the blue "My Identification Numbers tab to see an overview of the "My Identification Numbers" section. If your questionnaire only has one Identification Number, this tab will be labeled with that Identification Number type.

4.1 My Identification Numbers List

Click on the blue tab "My {your Identification Numbers}" tab to see an overview of the "My Identification Numbers" section.

The screenshot shows the 'child malnutrition' interface with the 'My Child' tab selected. Handwritten annotations guide the user through the process:

- 1 Register or Export your Identification Numbers here**: Points to the top navigation bar.
- 2 Edit the registration form here**: Points to the 'Child Registration Form' link.
- 3 Edit or delete an Identification Number**: Points to the 'Actions' dropdown menu.

The table below lists the registered children:

	Child's name?	Child's last name?	Child's date of birth?	Mother's name?	Village?	GPS coordinates?	Child's Unique ID Number?
<input type="checkbox"/>	Fifaliana	Andrianandraina	24.09.2013	Haja	Andavamamba	-18.918591, 47.512982	chi23
<input checked="" type="checkbox"/>	Finaritra	Andrianasolo	11.04.2013	Simone	Ampefiloha	-18.911158, 47.512183	chi24
<input type="checkbox"/>	Nirina	Andriatahiana	02.03.2013	Vola	67ha	-18.906962, 47.508225	chi25

4.2 Identification Number Registration Form

You can customize the Identification Number registration form to meet your needs for each Identification Number type. The Identification Number registration form builder is similar to the Questionnaire builder – you can add, edit and delete questions as needed.

12

Please note that the answer types of the default questions are not editable. Identification Number criteria are not editable once you've saved your Identification Number registration form. If you don't need a certain question, delete it and add a new question to be able to set the correct answer type. If you delete a question from the Identification Number registration form, any previously collected data related to this specific question will be lost.

4.3 How to Register an Identification Number

Once your Identification Number Registration Form is ready, you have three options to register your Identification Number profiles:

1. One-by-one using the web form
2. In bulk using "Import a list"
3. In the field using SMS

4.3.1 Register an Identification Number by Web Form

To register an Identification Number by Web form, please click on "Register a Child (your Identification Number will be displayed accordingly)" in the upper right hand side (see screen shot in section 4 Register Identification Numbers above) or in the Identification Number Registration Form page, click on the Web button next to the SMS button.

The screenshot shows the 'child malnutrition' dashboard with tabs for Overview, Questionnaire, My Data Senders, My Child, Data, and Messages & Reminders. The 'My Child' tab is active, showing a 'Child' section with links for 'Register a Child' and 'Import a List'. Below this is the 'Child Registration Form' with fields for: 1. Child's first name, 2. Child's last name, 3. Child's date of birth, 4. Mother's name, 5. Village, 6. GPS coordinates, and 7. Child's Unique ID Number. A 'Register' button is at the bottom. Handwritten annotations include: 1. An arrow pointing to the 'Web' button in the top right corner. 2. An arrow pointing to the form fields. 3. An arrow pointing to the 'Child's Unique ID Number' field, which has a checkbox for 'Let us generate an ID for you'. 4. A circle around the 'Register' button.

Edit Print SMS **Web**

1. Child's first name?
Answer must be a word
Minimum 1 characters

2. Child's last name?
Answer must be a word
Minimum 1 characters

3. Child's date of birth?
Answer must be a date in the following format: day.month.year. Example: 25.12.2011

4. Mother's name?
Answer must be a word
Minimum 1 characters

5. Village?
Answer must be a word
Minimum 1 characters

6. GPS coordinates?
Answer must be GPS co-ordinates in the following format: xx.xxxx,yy.yyyy Example: -18.1324,27.65
xx.xxxx,yy.yyyy

7. Child's Unique ID Number?
☐ Let us generate an ID for you

Register

1 Click here to register an Identification Number by Web form

2 Fill out all the information required

3 Use your own UID or let Datawinners generate it for you

4

4.3.2 Import a list of Identification Numbers

If you have a large number of Identification Numbers, we suggest you choose the import option.

Import a list of Child

To import a list of child follow these steps

- Download the template child.xls
- Fill out the template with your child' information.
- The last question is optional. If you already have ID numbers for your child, fill them in. If not, DataWinners will generate them for you.
- Save the template on your computer.
- Click the gold Upload a file button and select the saved tem

1 Download the template and fill it out

Upload a file Download the template: [child.xls](#)

Note:

- You cannot add new columns in your Excel file to create new question. [Edit the child Registration Form](#) to make these changes.

2 Click here to upload the Excel file

Click on close when you're done

3 Close

4.3.3 Register an Identification Number by SMS

Click on the “(your Identification Number will be displayed accordingly) Registration Form” tab on the My {your Identification Number} page. There is a link to print this form. Please print this form and share it with your field staff. When registering a new Identification Number, they have to type the SMS in the following format: QuestionnaireCode answer1 answer2 answer3... One space is used as a separator between each response to the Identification Number registration questions.

Child Register a Child | Import a List

Register each Child you need to collect data about and want to see on a map.

My Child Child Registration Form

Define what information you want to collect about each child.

SMS Child Registration Form

Your Data Senders can register a new clinic via SMS. Print out this form and give it to your Data Senders.

Edit Print View Style: SMS Web

SMS your answers to: **+261333782964**

Questionnaire Name: **child malnutrition**

Questionnaire Code: **chi**

Example SMS: **chi answer1 answer2 answer3 answer4 answer5 answer6 answer7**

1. Child's first name?
Answer must be a word
Minimum 1 characters

2. Child's last name?
Answer must be a word
Minimum 1 characters

Start your SMS with the Questionnaire Code

Send your SMS to the number linked to your account

Use this format to type your SMS

Now that you've registered your Identification Numbers, you only have one step left before your Questionnaire is ready for data collection: **Register Data Senders**.

5 Register Data Senders

To ensure the quality of your data, it is important to specify who has authorization to send you data. All account users can authorize Data Senders to submit data by filling out a short registration form. Remember, Data Senders must be registered in the system in order to be authorized to send in data.

However, when collecting data using SMS, you can choose to allow everyone who has a simple phone to submit data. You can specify the people authorized to submit data using SMS, whether "Everyone" or "Only Registered People", in the "My Data Senders" page.

Data Senders can submit data using any combination of three channels:

1. SMS
2. Web
3. Smartphone

When registering a Data Sender, you can select the authorized channels for data submission. To authorize Web and Smartphone access to your Data Senders, it is necessary to provide a valid email address. This email address will serve as the login for the Data Sender.

5.1 My Data Senders List

Registered Data Senders are listed on the My Data Senders page. These are the individuals who are authorized to submit data for this Questionnaire. You can authorize them for other Questionnaires (Please see section **Erreur ! Source du renvoi introuvable. Erreur ! Source du renvoi introuvable.**). To do so and to view all the Data Senders registered in your account, please click on the "All Data Senders" link in the upper hand side (Please see section **Erreur ! Source du renvoi introuvable.** All Data Senders).

Manage and edit the information for your Data Senders from this page. To do this, check the box next to the Data Sender's name, then select from the Actions drop down list. Use this page to update Data Senders' information should their phone number or other details change.

④ Edit your Data Sender's information, authorize or delete

5.2 Open Data Sender

You can choose to collect data from unregistered Data Senders using SMS and open your Questionnaire to everyone by choosing “Everyone - Anyone with a simple phone can submit data” in the “My Data Senders” page, under the People Authorized to Submit Data Using SMS section.

In that case, anyone can submit data for your Questionnaire. It is not necessary to register your Data Senders beforehand.

People Authorized to Submit Data Using SMS

Who has permission to submit data using SMS for this Questionnaire:

☒ **Everyone**
Anyone with a simple phone can submit data

☐ **Only Registered People**
*Data Senders must be registered first before submitting data.
Example: Registered field staff, community based workers, supervisors*

Cancel Save

Choose "Everyone" if you want to allow anyone to submit data

However, you can choose to register the unregistered Data Senders in the system later, using the options featured in 5.3 How to Register a Data Sender. All the submissions made by the Data Sender before his registration will be displayed under his name and ID once he's registered in the system.

5.3 How to Register a Data Sender

There are three options for registering your Data Senders:

- One-by-one using the web form
- In bulk using “Import a list”
- In the field using SMS

5.3.1 Register a Data Sender by Web Form

To Register a Data Sender by Web form, click on “Register a Data Sender” on the My Data Senders page or click on “Data Senders Registration Form”. See section 5.1 My Data Senders List for a screenshot of this page.

Register Datasender

All fields are required unless marked optional.

Name

Device ☒ SMS ☐ Web + ☐ Smartphone

Mobile Number

*Enter the country code and telephone number.
Example: 261333745269*

Location *Enter either a location name or the GPS coordinates.*

Name

*Answer must be a location name. Example:
Nairobi*

GPS Coordinates [Find GPS coordinates](#)

*Answer must be GPS coordinates in the following
format(latitude,longitude): xx.xx,yy.yy. Example:
-18.13,27.65*

Unique ID ☒ Let us generate an ID for you

[Cancel](#) [Register](#)

Handwritten notes:

- Authorize for SMS only or for Web and Smartphone too
- Enter the phone number that will be used to submit data
- Enter a unique ID or let Datawinners generate it for you

5.3.2 Import a list of Data Senders

When registering a large number of Data Senders, we suggest you use the "Import a list" option. Follow the downloadable template to fill out the registration information for each Data Sender

Import a Data Senders list

To import a list of Data Senders follow these steps

- Download the template.
- Fill out the template with your Data Senders information.
- Save the template on your computer.
- Click the gold Upload a file button and select the saved template.

[Upload a file](#) 2

[Use this Import Template](#) 1

5.3.3 Register a Data Sender by SMS

Please use the following SMS format to register a Data Sender using SMS:

reg reporter name uid location gps phonenumber

- **Name:** Enter the name of your Data Sender. If you would like to register the first name and the last name, you have to separate them by a period (“.”). Example: John.Smith
- **UID:** When registering a Data Sender via SMS, do not leave the uid (Unique ID) field blank. If you would like DataWinners to generate it for you, we suggest you register the Data Sender via the Web.
- **Location:** Enter the location of your Data Sender (for example, the town, village, or administrative zone of the Data Sender). If the location is more than one word, remember to use a period instead of a space as a separator.
- **GPS:** Enter the GPS location for the Data Sender. If you don't have the GPS coordinates, enter 0.0,0.0 as a placeholder.
- **Phone number:** Enter the phone number that the Data Sender will use to submit data, starting with the country code. In the case that local phone numbers contain a leading zero, take care to omit them as you enter the number.

— **Example**

reg reporter Steve rep112 Dublin 0.0,0.0 35318145417

Notes:

- When registering a Data Sender via SMS, all fields are mandatory.
- Only previously registered Data Senders can register a new Data Sender via SMS. Otherwise, DataWinners will reject the SMS due to lack of authorization.

Congratulations! Your Questionnaire is now ready to be tested.
